ALERT: NHSC classes moving to TEAMS delivery for January 24-February 4, 2022

Dear Campus Community:

Due to the recent upsurge in COVID-19 numbers in our area, NHSC Administration has decided to move to delivery of courses through TEAMS. Students will NOT have to come to campus for courses January 24-February 4, 2022. Students will attend their classes using the TEAMS links for classes and their mynhsc. Students should contact their instructor(s) if they have questions or need assistance with their courses.

The building will be open for students who need assistance. Everyone is encouraged to call ahead before coming to the College, as this will help to ensure that the person you want to visit is available. Here's the link to the staff directory <https://nhsc.edu/staffdirectory/>.

People visiting the campus are **required** to wear masks and check in at Door C.

We will reevaluate the situation on February 4th and provide an update to our campus community.

Thank you for your assistance in this matter.

Respectfully,

Twyla Baker, Ph.D.
President
